### **WHAT IS DOCERI?**

- Doceri is an interactive whiteboard for your iPad or Windows 10 Tablet
- This app allows you to create, save and edit presentations for your classroom.
- This app also streams to your desktop or laptop without any assistance of an outside device such as an Apple TV.

### **WHY DOCERI?**

- Create your presentations while teaching.
- Allows for more engagement from students.
- Automatically records your pen strokes.
- Record yourself teaching and upload straight to YouTube.

### **HOW TO USE THE DOCERI APP:**

Computer: - Go to Doceri.com and download Doceri for desktop.

*(The Desktop Version is a just a streaming program and does not have the functionality of the app.)*

- Desktop Program Cost \$30.00 for a lifetime license and includes updates and new versions.

iPad or Windows 10 Tablet: Go to the App or Microsoft Store and Download the App

- App is free
- App is available for use without the Desktop Streaming App.

*(Warning the Windows 10 App will need help with the screen size. You will resize the window to see the entire whiteboard.)*

### **OPEN DOCERI**

- Two Options: From iPad or Through A Computer
- On the Next Screen you choose from a created presentation or tap the + (plus sign) on the bottom left corner to create a new presentation.

## TOOL BAR:

Starting from left to right.

Project Icon (File Folder)– Allows you to open or switch to another project.

Record Icon (Red Dot with REC) – Allows you to record your presentation.

Background Icon (Two Rectangles) – Change the white board to other preset or your own backgrounds.

Image Icon (Picture) – Use a picture as a background.

Export Icon (Box with Arrow) – Allows you to export the current slide as a JPEG or PDF.

Drawing Tools (Six square boxes) – Pen, Markers, Highlighters, Shapes, Eraser that are changeable.

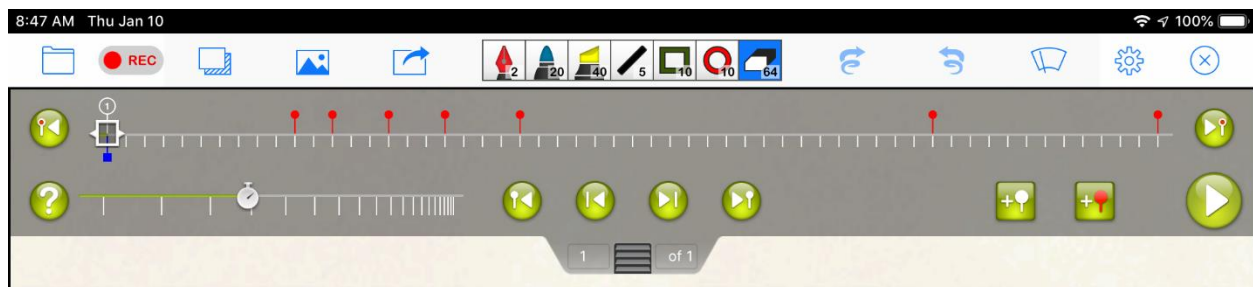

Clear Icon (Windshield Wiper) – Clears the entire board.

Undo & Redo Icon (Spiraling Arrows) – Undo or redo any pen strokes.

Setting Icon (Gear) – Allows you to change app settings.

Close (X inside a Circle) - Closes the current presentation.

## SLIDER

The Doceri app records each pen stroke every time you lift off the screen.

The slider tool will allow you to go through all your pen strokes.

There is a scale allowing you to control the playback speed.

There are stops that can be added into the timeline to pause the playback.

Finally, a add new slide feature clearing the past strokes and giving you a new screen to continue without recording the eraser marks.

## **RECORD**

- The record feature will create a video while you are doing your presentation.
- It also records a voice over of you talking.
- You can upload the video straight to YouTube or save the video.

## **PRACTICE TIME**

Instructions: 30 Minutes

- Team up with teachers in your content area.
- Plan a small lesson you would teach in your classroom.
- Create a presentation on Doceri.
- Remember to use the slider and place appropriate stops.
- After the 30 minutes is up each group will present their lesson.
